## PROFILE SUMMARY

- Frontend-focused Full Stack Developer with 1.5+ years of hands-on experience building responsive, high-performance web applications using React.js, Next.js, Node.js, and modern JavaScript (ES6+). Proven track record in developing scalable UI components, optimizing web performance, and integrating RESTful APIs. Skilled in translating designs into pixel-perfect interfaces with Tailwind CSS, implementing state management with Context API, and creating seamless user experiences. Passionate about clean code, performance optimization, and staying current with the latest frontend technologies and best practices.

## TECHNICAL SKILLS

- Frontend Technologies: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Three.js
- State Management: Context API, Redux (familiar), React Hooks (useState, useEffect, useReducer, useContext)
- Backend & APIs: Node.js, Express.js, RESTful APIs, GraphQL (familiar), API Integration
- Databases: MongoDB, SQL, MySQL
- Tools & Workflows: Git, GitHub, Webpack, Vite, NPM, Responsive Design, Mobile-First Development
- UI/UX: Figma to Code, Pixel-Perfect Implementation, SSR/SSG (Next.js), Performance Optimization, SEO
- Development Practices: Agile/Scrum, Code Reviews, Component-Based Architecture, Debugging, Cross-Browser Testing

## WORK EXPERIENCE

### Full Stack Developer

#### Reunyte Services | Mumbai, India | June 2023 - Present

- Built production-ready web applications using React.js, Next.js, and Node.js, implementing SSR/SSG features that improved page load times by 40% and boosted SEO rankings significantly
- Developed 10+ RESTful APIs from scratch including authentication, user management, and third-party integrations, with optimization techniques like caching, pagination, and rate limiting
- Created fully responsive, pixel-perfect interfaces using Tailwind CSS with mobile-first approach, ensuring smooth performance across all devices
- Optimized application performance through code splitting, lazy loading, and bundle size reduction, while managing MongoDB databases with proper indexing and query optimization for faster data retrieval
- Worked in Agile environment collaborating with cross-functional teams, conducting code reviews, and maintaining clean, scalable code architecture following industry best practices

### Web Developer

#### My Country Mobile | Mumbai, India

- Maintained and enhanced live production website, redesigning 8+ service pages resulting in 40% improvement in user engagement metrics
- Developed 5+ production APIs including SMS gateway integration, user authentication, and data processing APIs to enhance site functionality
- Implemented responsive design patterns ensuring seamless experience across desktop, tablet, and mobile devices
- Collaborated with backend team to optimize API calls and improve overall application performance by 20%

# Web Developer

SIB Infotech | Mumbai, India

- Maintained and updated digital marketing agency's live website, implementing design improvements and ensuring website stability
  - Designed and developed admin dashboard using React.js for blog management, streamlining content publishing workflow by 50%
  - Implemented responsive UI components ensuring consistent user experience across all devices and browsers
  - Worked closely with design team to translate mockups into functional, interactive web pages
- 

## PROJECTS

### CareerConnect | Career Management Platform (In Development)

Tech Stack: **React.js, Next.js, Node.js, Express.js, SQL, RESTful APIs, JWT Authentication**

- Modern full-stack career platform connecting job seekers with employers, featuring server-side rendering for SEO optimization, real-time notifications, and comprehensive job application tracking system.

### Brand Reputation Tracker | Social Media Analytics

Tech Stack: **React.js, Node.js, YouTube API, Reddit API, RESTful APIs, Chart.js**

- Real-time brand monitoring dashboard aggregating data from multiple social media platforms with sentiment analysis and interactive data visualizations.
-  Live: [View Project](#)

### My Portfolio Website

Tech Stack: **React.js, Three.js, Tailwind CSS, React Router**

- Modern portfolio showcasing advanced frontend capabilities with immersive 3D animations, smooth transitions, and fully responsive design achieving 95+ Lighthouse scores.
-  Live: [omkar-narkar.vercel.app](#)

### E-Commerce Web Application

Tech Stack: **Advanced Java (Servlet, JSP), SQL, MVC Architecture, JavaScript**

- Comprehensive e-commerce platform with user authentication, product catalog with search filters, shopping cart, order management, and admin dashboard.

### Online Shoe Store | React E-Commerce

Tech Stack: **React.js, React Hooks, Context API, CSS3**

- Feature-rich e-commerce application with global state management, dynamic product filtering, shopping cart functionality, and mobile-first responsive design.
  -  Live: [View Project](#) (Assignment 3)
