CHETANA'S HAZARIMAL SOMANI COLLEGE OF COMMERCE AND ECONOMICS.

- HSC
- CHETANA'S HAZARIMAL SOMANI COLLEGE OF COMMERCE AND ECONOMICS.
- Bachelor of Science in Information Technology.

## SKILLS

- Web Development and Designing.
- React Js, Node js
- Advanced Java, SQL
- Front End & Back End Coding
- Leadership
- Effective Communication
- Critical Thinking

## PROFILE SUMMARY

- I'm a Full Stack Developer with 1 year and 5 months of hands-on experience building responsive web applications using JavaScript, React.js, Node.js, and SQL. Along the way, I've worked on creating practical solutions like RESTful APIs for SMS gateways and user authentication, and even applied Advanced Java in one of my projects. I enjoy solving problems, picking up new technologies quickly, and building applications that are not only efficient but also easy for people to use.

## WORK EXPERIENCE

### My Country Mobile

Web Developer

- Worked on the live website, maintained existing pages, and redesigned service pages for better user experience.
- Developed multiple APIs, including SMS gateway APIs, user authentication APIs, and other practical APIs to enhance site functionality.

### SIB Infotech

Web Developer

- Maintained and updated the live website of the digital marketing agency, implementing design improvements and ensuring overall website stability and responsiveness.
- Designed and developed the admin dashboard for managing blog pages, making content updates and publishing processes more efficient and user-friendly.

### Reunyte Services

Full Stack Developer

- Creating and developing the entire project architecture using React.js and Node.js, ensuring a seamless, high-performance, and responsive user experience across all modules.
- Designing, building, and integrating RESTful APIs, including developing, calling, and managing multiple endpoints to connect the frontend and backend efficiently.
- Managing MongoDB databases, handling data modeling, CRUD operations, and optimizing queries for scalability and performance.
- Collaborating with cross-functional teams to implement new features, enhance performance, and ensure the application meets real-world business requirements effectively.
- Focusing on clean, maintainable code and best development practices, ensuring long-term project stability and smooth deployment cycles.

## PROJECTS

### E-Commerce Web Application

- Advanced Java (Servlet, JSP) & SQL Database

### CareerConnect | Web Platform

- React.js, Node.js, SQL Database (currently in development)

### Other Projects

- Developed several smaller projects using JavaScript, React.js, Node.js, HTML, CSS, and SQL, focusing on web development, API integration, and UI enhancements.
